COTUTELLE

The **cotutelle** consists of a collaboration between two Universities of two different countries aimed at creating a training course for students enrolled in PhD courses active in the partner universities. This collaboration foresees that the PhD student has to carry out his/her thesis work at the two venues for alternate periods, preferably of equivalent duration and in any case for a minimum period of six months under the co-supervision of two professors, one for each university. The training course ends with a single exam following which a diploma (double or joint) is awarded in both countries.
